

Predicting Soccer Player Transfer Values

Agenda

Business Problem

Sources of Data

Finding Key Predictors

Modeling Results

Conclusions

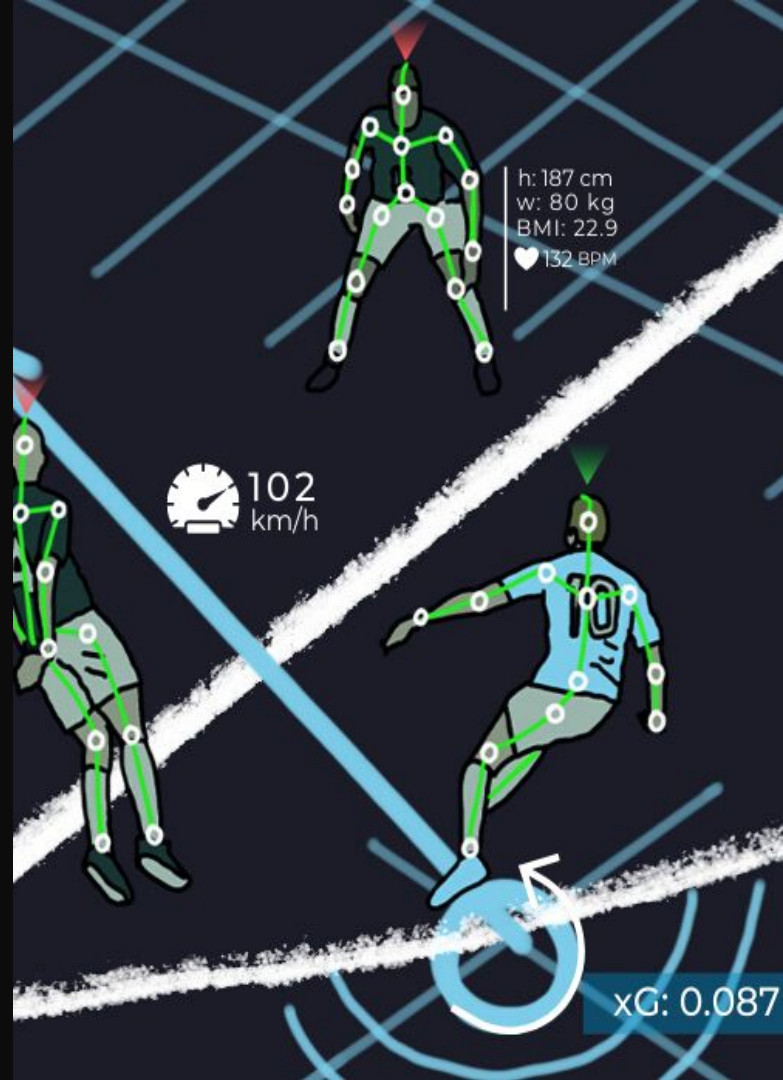

Business Problem

Gathering Data

FBREF.com

Insert visualization of some data from fbref

Transfermarkt.co.uk

Insert line plot visualization in of player values in descending order here. This is to highlight how prices are significantly higher for the top 100 players.

Key Predictors

Perhaps a visualization of some interesting correlations???

Model Performances

Insert Visualization of results from each model and identifying the best one

Conclusions

Thank You
